

## UPDATE and explanation of vote IPPC

-ENVI vote on 22 January 2009-

***NOTE: this is a document to update YOU about the situation in comparison with the letter I asked you to send to the MEPs. This is not to send to MEPs.***

We ask you to support

Amendments	Justification	<b>LAST UPDATE</b>
108, 109, 110, 111	To keep scope of directive and consider pyrolysis, gasification and plasma processes as incineration and avoid opening the door to considering incineration ashes as by-products (and therefore escape waste definition).	Considered inadmissible
177, 178	To increase enforceability of BREFs	Will be voted separately ++
189, 191, 192, 194, 210, 211, 214, 229, 268, 269, 270, 276, 329, 330, 331, <b>339</b> , <b>340</b> , 343, 346, 370, 371, 381, <b>477</b> , 475, 476.	For stricter emission levels, more monitoring and no derogations	To be voted in Blocs 1,2 and 4, 6, 8. If blocs are approved 189, 191, 192, 194, 210, 211, 268, 269, 270, 276 fall.  Am 329, 330, 339, 340, 343, 346, 477 are considered inadmissible.  229 and 331 Will be voted separately ++
7, 150, 198,	For participation and access to	150 will be

282, 288, 290, 292, 299, 362, 363	287, 289, 291, 293, 300,	information of NGOs and people concerned in decisions and increase transparency and right leadership in the Sevilla process.	voted separately.  The rest Fall if bloc 4 and 7 are adopted.
312		To have all plants incinerating or co-incinerating waste under WID	Considered inadmissible
339		to avoid giving preference to electricity only incinerators before CHP incinerators	Considered inadmissible
340, 385		to increase the "efficiency" standards of incinerators and oblige to use the best available techniques	Considered inadmissible
393, 392		Co-incineration at same level as incineration	Fall in bloc 8 is adopted.
477		for extending the list of <u>PCBs</u> and tighten control on dioxins and furans	Considered inadmissible, and in any case it would fall if Bloc 8 is adopted.
478		to increase control on <u>Hydrogen fluoride</u>	Considered inadmissible and in any case it would fall if Bloc 8 is adopted.
479, 481, 490 and 491	480, 489,	to tighten up <u>NOx</u> emissions from incinerators	Considered inadmissible and in any case it would fall if Bloc 8 is adopted.
482		to include ELV for <u>mercury</u> in air emissions from incinerators	Considered inadmissible and in any case it would fall if Bloc 8

		is adopted.
483, 494	to increase ELV for the <u>total dust</u> emissions allowed in incinerators	Considered inadmissible and in any case it would fall if Bloc 8 is adopted.
484 and 485	to increase ELV on <u>hydrogen chloride</u>	Considered inadmissible and in any case it would fall if Bloc 8 is adopted.
486	to increase ELV on <u>sulphur dioxide</u>	Considered inadmissible and in any case it would fall if Bloc 8 is adopted.
487	to increase ELV on <u>hydrogen fluoride</u>	Considered inadmissible and in any case it would fall if Bloc 8 is adopted.
492 and 497	to insert control on <u>ammoniac</u>	Considered inadmissible and in any case it would fall if Bloc 8 is adopted.
495, 496	to increase ELV for co-incineration and create a common playing field with incineration	495 falls if bloc 8 is adopted.  If it bloc 8 not adopted then +++  496 Considered inadmissible and in any case it would

		fall if Bloc 8 is adopted.
502	to advance 2 years the entering into force of ELVs	Falls if bloc 8 is adopted.  If it bloc 8 not adopted then +++
507, 508, 509 and 510	to avoid having no measurement of HCl, HF and SO2	Falls if Bloc 8 is adopted.  If it bloc 8 not adopted then +++
515 and 516	to force continuous measurement of NOx when burning mixed waste	Falls if Bloc 8 is adopted.  If bloc 8 and am 513 not adopted then +++
521 and 522	to include continuous measurement of heavy metals and dioxins and furans	Falls if Bloc 8 is adopted.  If bloc 8 and am 519 not adopted then +++
524	to avoid incineration of chlorinated compounds	Considered inadmissible and in any case it would fall if Bloc 8 is adopted.

**We ask you to reject**

184, 185, 28, 188, 196, 213, 214, 336, 337, 350, 351	For Emission limit values without exceptions for local conditions, economical and technical factors	Voted in bloc 1. If bloc 1 is adopted 184, 185, 188,
--	---	--

		196, 213 and 214 will fall.  Am 336, 337, 350 and 351 considered inadmissible.
176, 181	To make BREFs binding	Voted in bloc 1. If bloc 1 is adopted 176 and 181 will fall.
396, 397, 399	to implement Best Available Techniques to incinerators	Fall if bloc 8 is adopted.
500, 503 and 504	to avoid reinstating old provisions on desulphurization	Fall if bloc 8 is adopted.
511, 517 and 518	to avoid having no measurement on HCl, HF, SO2 and NOx	Fall if bloc 8 is adopted.
